Web & Backend: Angular, TypeScript, JavaScript, HTML, CSS, Bootstrap, Node.js, Express.js

Tools: Git, GitHub, VS Code, Postman

PROFESSIONAL EXPERIENCE

Full Stack Developer

Jul 2024 – Present

Vilcart Solutions Pvt Ltd · Bangalore, Karnataka

Project: VilcartERP

- Developed and maintained ERP modules using Angular and Node.js, supporting core business operations.
- Built and integrated REST APIs connecting backend services to front-end reporting modules.
- Created dynamic reports and business dashboards used by management for operational tracking.
- Optimized SQL queries to improve application response time and reporting performance.
- Partnered with QA and business teams to gather requirements and deliver new features.

Project: VilReports

- Delivered core modules including Orders, CRM, Customer Management, SKU Tracking, HR Genius, Attendance, and Order Analytics.
- Designed responsive Angular components for a consistent cross-device user experience.
- Integrated REST APIs and contributed to analytics and reporting features supporting data-driven operational decisions.

Assistant Professor

MIT College · Mysuru, Karnataka

- Delivered lectures on core Computer Science subjects, including programming and database systems.
- Mentored students on programming fundamentals and database design concepts.
- Conducted laboratory sessions and managed student assessments and evaluations.

Trainee Executive

Jun 2023 – Nov 2023

Corporate Networks · Bangalore, Karnataka

- Delivered technical training sessions to corporate professionals across multiple client engagements.
- Prepared training materials and technical documentation for internal and client use.
- Supported client training programs and technical product demonstrations.

PROJECTS

Sales Performance Dashboard

SQL · Excel · Power BI

- Built an interactive dashboard to monitor key business KPIs across products and regions.
- Analyzed monthly sales trends and revenue growth to surface performance drivers.
- Developed dynamic visualizations tailored to management reporting needs.
- Automated recurring report generation, reducing manual reporting effort.

HR Analytics Dashboard

SQL · Excel · Power BI

- Designed an HR dashboard to track workforce metrics across departments.
- Visualized employee distribution, attrition trends, and department-wise statistics.
- Built interactive reports enabling HR leadership to make data-backed decisions.
